

Consumer and Non-Business Fiduciary Account Rate and Fee Schedule

NATIONAL CREDIT UNION SHARE INSURANCE FUND

Member accounts in this Credit Union are federally insured by the National Credit Union Share Insurance Fund. Visit NCUA.gov for information regarding limits and conditions for coverage.

MEMBERSHIP REQUIREMENTS

Persons and non-business entities meeting membership eligibility requirements may join Arizona Federal Credit Union. A Membership Share account will be opened on your behalf and funded with a par value amount which represents your ownership share in the credit union. The Membership Share account is required and will be restricted from use. With the establishment of your account, you become part of a member-owned, not-for-profit cooperative and we require that you keep your account in good standing and encourage you to actively participate.

If you choose to open a checking account, a minimum \$20 initial deposit is required. The \$20 minimum deposit is waived for minors under the age of 18.

INACTIVITY

Impact of Inactivity: We encourage you to keep your accounts active. Share and checking accounts with zero balances or balances below the required minimum will be considered inactive if no member initiated transactions have occurred for 90 days. Inactive accounts are subject to closure.

DIVIDENDS

Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period, and are not guaranteed. Dividends are calculated by the average daily balance method, which applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period. Dividends will begin to accrue on the business day you deposit non-cash items (e.g., checks) to your account. Dividends are posted at the close of business on the last day of each dividend period and are available for withdrawal the following business day. Dividends are paid as set forth above. We may change the rates, balance, tiers, and fees at any time and will notify you as required by law. The dividend declaration date is the last day of a dividend period.

DIVIDEND RATES

Checking Account: You must maintain a minimum average daily balance of \$25 to receive dividends. Checking accounts are tiered based on your average daily balance. If your average daily balance is between \$25 and \$999.99, the prospective dividend rate paid on the entire balance will earn the lowest anticipated dividend rate for a checking account. If your average daily balance is \$50,000 or greater, your account will earn the highest anticipated dividend rate for a checking account. Dividends will be compounded and credited monthly. The dividend rate and yield may change every quarter as determined by the Credit Union Board of Directors.

Savings & Sub Share Accounts: You must maintain a minimum average daily balance of \$25 to receive dividends in a basic savings account and a minimum average daily balance of \$100 in other sub-share accounts. Dividends will be compounded and credited monthly. The dividend rate and yield may change every quarter as determined by the Credit Union Board of Directors.

Money Market Accounts: You must maintain a minimum average daily balance of \$1,000 in your money market account to receive dividends. Dividends will be compounded and credited monthly. Money Market rates are tiered based on your average daily balance. Please refer to the table for specific rate information on each tier. The dividend rate and yield may change every month as determined by the Credit Union Board of Directors.

Term Share Certificates: Dividends accrue from date of deposit and are compounded and credited monthly based on the daily balance. Withdrawal of dividends prior to maturity will reduce your earnings. Early Withdrawal Penalties for Certificates, including IRA's are imposed: The penalty for withdrawals is based on the amount withdrawn with a minimum penalty of \$25. Certificates with terms of less than 12 months, the penalty is 1% of the amount withdrawn or \$25 whichever is greater. Certificates with terms of 12 months to less than 48 months, 2% of the amount withdrawn or \$25 whichever is greater. Certificates with terms of 48 months or greater, 3% of the amount withdrawn or \$25 whichever is greater. Withdrawals which will result in a balance less than the required minimum must close the certificate. Penalty amounts may exceed earnings. Dividends are fixed for the term of the certificate. Certificates which renew automatically will receive the rate in effect on the date of renewal. There is a 10 day grace period at maturity. Non-renewals do not earn dividends after maturity.

Consumer and Non-Business Fiduciary Account Rate and Fee Schedule
